

## Replace Datamanager license

### 1. Stop the S4M DM services

Login on the server and run (as administrator) **S4M-DM-StopServices.cmd** located in  
\\S4M\_DM\Tools\

### 2. Check services S4M

Check if all services starting with S4M.... are stopped

Remote Procedure Call (RPC)	The RPCSS ...	Running	Automatic	Network Service
RPC Endpoint Mapper	Resolves RP...	Running	Automatic	Network Service
S4M Connector SP Agent	S4M Conne...		Automatic	Local System
S4M DMPortal Server	S4M DMPor...		Automatic	Local System
S4M ESB Agent	S4M ESB Ag...		Automatic	Local System
S4M ESB Application Server	S4M ESB Ap...		Automatic	Local System
S4M ESB Trigger Server	S4M ESB Tri...		Automatic	Local System
S4M ETL Agent	S4M ETL Ag...		Automatic	Local System
S4M Plugin Manager	S4M Plugin ...		Automatic	Local System
S4M Trace Agent	S4M Trace ...		Automatic	Local System
S4M Trace Server	S4M Trace S...		Automatic	Local System
Security Accounts Manager	The startup ...	Running	Automatic	Local System
Shell Hardware Detection	Provides no...	Running	Automatic	Local System
SQL Server (MSSQLSERVER)	Provides sto...	Running	Automatic	NT Service\MSSQLSERVER

If one of them is still running stop them via a right mouse button click (stop services)

### 3. Run the LicenseManagementTool

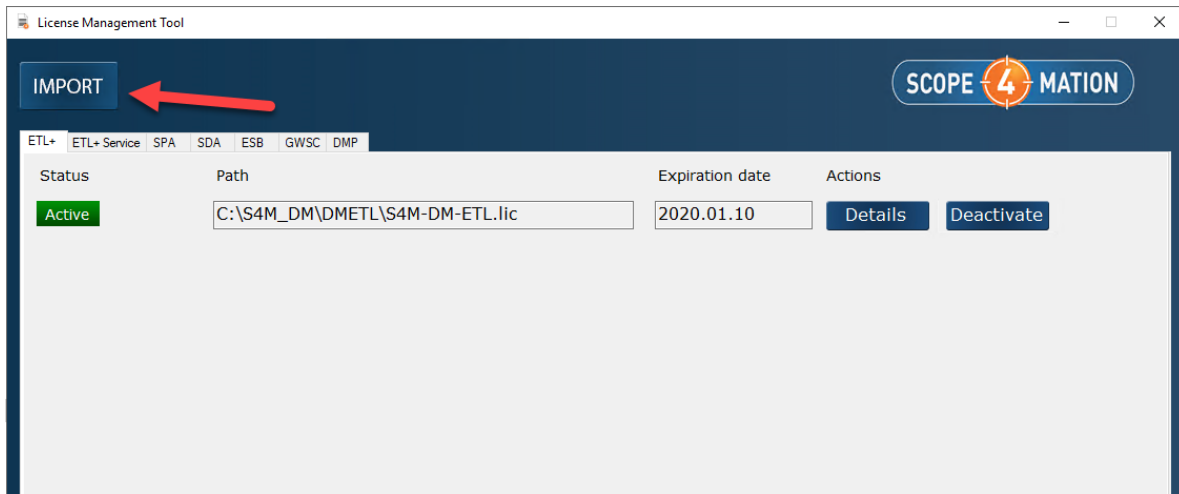

Run the LicenseManagementTool (as administrator)

ETL Job Import Export.exe	3-8-2016 09:40	Application	50 KB
ETL Job Import Export.exe.config	24-4-2019 11:12	XML Configuratio...	1 KB
Generate_Installer_Overview.exe	25-9-2013 10:50	Application	6 KB
ImportExportChangeLog.txt	24-4-2019 11:12	Text Document	2 KB
LicenseManagementTool.exe	5-1-2015 12:52	Application	1.272 KB
Newtonsoft.Json.dll			
Products.xml			
S4M.PasswordHasher.exe			
S4M.PasswordHasher.exe.config			
S4MBB.jar			
S4MConfigGenerator.exe			
S4M-DM-StartServices.cmd			
S4M-DM-StopServices.cmd			

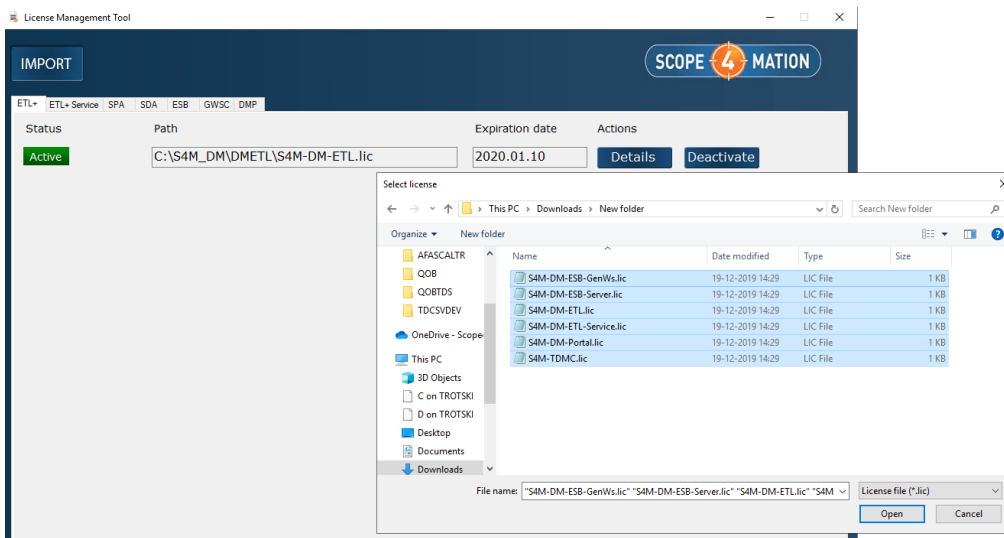

**Open**

-  Run as administrator
- Troubleshoot compatibility
- Pin to Start
-  Move to OneDrive
-  Edit with Notepad++
-  Share
-  Add to archive...
-  Add to "LicenseManagementTool.rar"
-  Compress and email...
-  Compress to "LicenseManagementTool.rar" and email

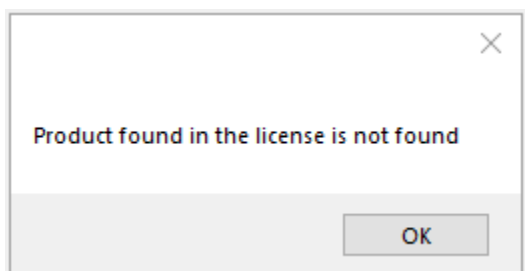

Click on Import

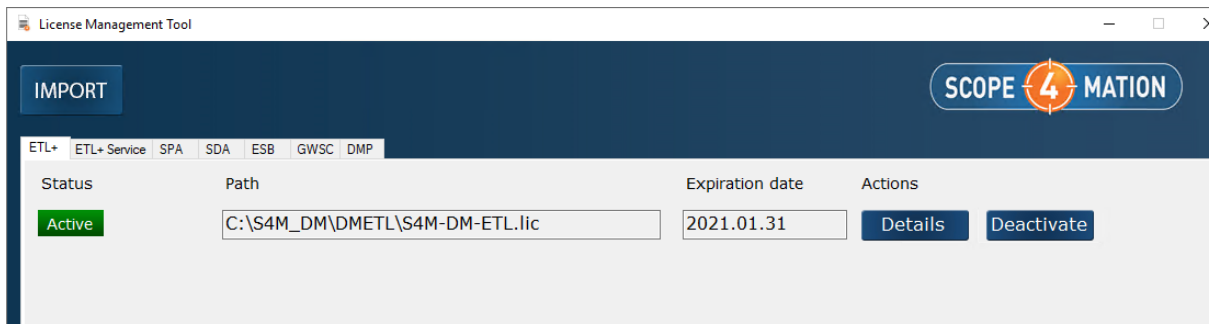

Select all licenses and click on OPEN

Option:

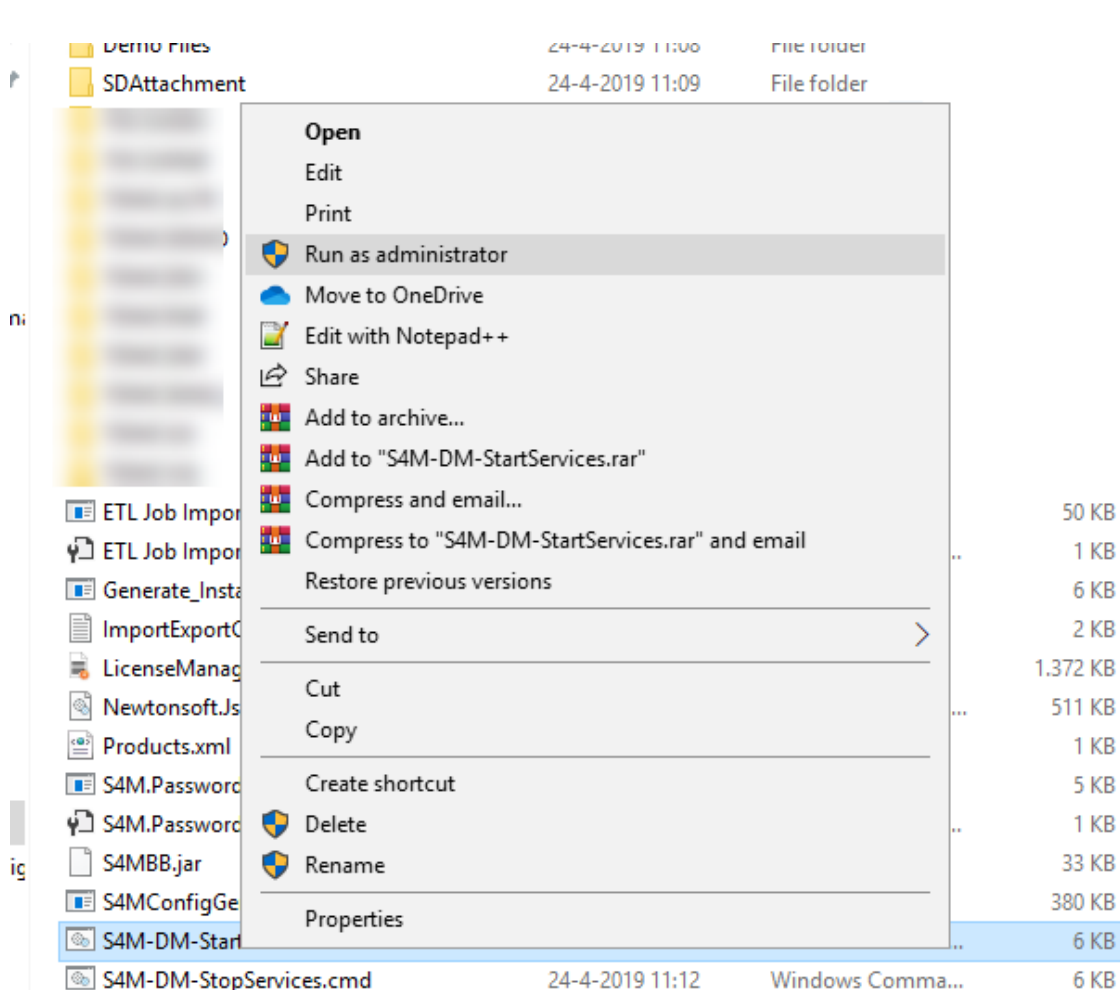

Click on OK to ignore this 'error'

Check is there is a new date activated.

#### 4. Start the S4M services.

Run (as administrator) **S4M-DM-StartServices.cmd** located in `\S4M_DM\Tools\`

Check if the S4M services are running

 S4M Trace Server	S4M Trace S...	Running	Automatic	Local System
 S4M Trace Agent	S4M Trace ...	Running	Automatic	Local System
 S4M Plugin Manager	S4M Plugin ...	Running	Automatic	Local System
 S4M ETL Agent	S4M ETL Ag...		Automatic	Local System
 S4M ESB Trigger Server	S4M ESB Tri...	Starting	Automatic	Local System
 S4M ESB Application Server	S4M ESB Ap...		Automatic	Local System
 S4M ESB Agent	S4M ESB Ag...	Running	Automatic	Local System
 S4M DMPortal Server	S4M DMPor...		Automatic	Local System
 S4M Connector SP Agent	S4M Conne...	Running	Automatic	Local System

All S4M services should be running
